

## **Specification**

Power supply 400v / 106A / 50Hz (other on request)

Power 72kW

Steam production 120kg/hour, 188oC in the boiler, 12 bar

pressure

Temperature at the nozzle 150oC

Water feeding by water network

Functions for grip handle (if included)

Steam / Steam & detergent / Steam &

water

340kg

Detergent tank 20 litre
Water descaler filter YES
Indicator for lack of water YES
Indicator for lack of detergent YES
Adjustable quantity of detergent YES
Maximum hose length 20m

Dimensions: 2250 x 690 x 1700mm

## **Features**

Weight

Heavy duty professional saturated steam cleaning unit with 72kW generator For industrial, food processing and cleaning including degreasing, sanitising and

disinfecting

Preparation of surface treatments including phosphate coating and passivation

Water pre heat system via coils

Adjustable detergent mixture

Stainless steel (AISI 304) body

8 x electrically controlled 9.0kW boilers

Three functions available from the optional grip handle :-

steam / steam & detergent / steam & water

Low voltage circuitry for operator safety including 12volt hand nozzle

Water descaler filter

Starts in less than 4 minutes

No water indicator No detergent indicator CE, PED and IPX 5 certifications

## Options Include

Automatic boiler drain kit, additional chemical tank, additional work station, water softener, hot water jet kit, customer PLC control kit, deriviation box
