

Specification

	Arboga A2608 gear head drill
Drilling capacity	25mm
Quill movement	135mm
Tapping capacity (steel, cast iron)	M16 / M20
Morse taper	MK / MT3
Motor power (50Hz)	0,65kW / 0,9kW
Spindle speed (50Hz)	105-210-350-445-700-890-1450-2900
Feed speed (mm/inch)	0,10/0,004-0,15/0,0006-0,30/0,012
Size of table	500 x 400mm
Electrics	400v / 3 ph / 50Hz
Net weight - A2608 / A2608M	180 / 200Kg

Arboga A2608 Gear Head Drills

Features

500 x 400mm table and electrically interlocked chuck guard

Rise/fall on both head and table

Table head also revolves through 360 degrees about the column

M Models feature Power Feed

When the set drill depth is reached, the spindle will automatically return to the starting point. The feed gear box is provided with an automatic overload protection device, which intervenes when the drill pressure is too high. The feed can also be interrupted manually.
