

Specification

Arboga A2608B Bench Mounted Drills	
Drilling capacity	25mm
Quill movement	135mm
Tapping capacity (steel, cast iron)	M16 / M20
Morse taper	MK / MT3
Motor power (50Hz)	0,65kW / 0,9kW
Spindle speed (50Hz)	105-210-350-445-700-890-1450-2900
Feed speed (mm/inch)	0,10/0,004-0,15/0,006-0,30/0,012
Size of table	500 x 350mm
Electrics	400v / 3 ph/ 50Hz
Net Weight - A2608B / A2608BM	130 / 150Kg

Features

500 x 360mm table and electrically interlocked chuck guard

Rise/Fall on both head and table

Table head also revolves through 360° about the column

Arboga A2608B Bench Mounted Gear Head Drilling Machines

M models denote Powerfeed

When the set drill depth is reached, the spindle will automatically return to the starting point. The feed gear box is provided with an automatic overload protection device, which intervenes when the drill pressure is too high. The feed can also be interrupted manually.

Need a floor mounted pedestal drill version?
