

Autocut 500 Single Head Automatic Sawing Machine with Automatic feeding for cutting at 90 Degrees

Technical Specification

TCT saw blade diameter

Motor

Air pressure

Air consumption

Max speed feeding unit

Max stroke feeding unit

Min. Cutting length

Automatic vice retraction

Autocut 500 Single Head Automatic Saw

500mm

3phase 3,7kw 400v/50hz

2800rpm

7 bar

25nl/min

30m/min (variable)

800mm

10mm

Standard equipment

Pneumatic clamping set

Venturi Spray mist unit

Central support for small size profiles

Additional kit pneumatic clamps to be fitted on the mobile carriage

Air gun + filter

Equipped with:

Automatic feeding system fitted with Brushless motor driven by numerical control "touch screen".

Bar-end detection device.

Clamping of the bar by "bridge" system.

Possibility to load and save cutting lists in CSV format with USB and ETHERNET connectivity. Spray mist lubrication (Venturi).
