

Carif 260 BSA Bandsaw is a reliable premium semi automatic sawing machine made in Italy.

Carif have made sawing machines since 1948, and have a practical range of high quality bandsaws which cover 3 sizes in both semi automatic and CNC fully automatic.

Simple operation simply press the start button and the saw vice will close, the already running bandsaw will then start a controlled decent through the workpiece. This speed can be altered as well as the hydraulic sawing or cutting pressure applied. Watch the video below for more information on Carif's patented feed system.

Standard Features

Robust basement structure in steel powder painted with bright and smooth finishing

Bow structure in special aluminium alloy hardened

Patented hydraulic system for a fine regulation of bow feed and cutting pressure

Blade motor 1,4kW; 400V, 33-66m/1'

Mitre cutting -45 degrees/+60degrees; bow rotation through conical bearings independent from the plans for piece support

Electrical cabinet easily movable for the best ergonomics

Wide plans for piece support for a comfortable and practical cutting area

Complete coolant equipment of 50lt tank with electro pump 3ph, 0,1kW inside the basement

Measuring device L=500mm with height regulation

- Large chips/swarf container for easy cleaning
- Bimetal blade M42 3025 x 27 x 0,9mm cardboard box + pallet, service wrenches, instruction manual and spare parts list.

Optional

Air/oil lubrication system, 2 elements

Digital angle display

Laser-line for positioning

Hydraulic device for vertical clamping of bars

Working light LED

Carif 260 BSA Bandsaw. The highest quality, most compact semi automatic bandsaw available.
