

Specification

	Delta Rotary surface grinder
Maximum grindable surface	400mm Ø
Distance between column and wheel axis	315mm
Max. distance between magnetic table and wheel	205mm
Rapid feed per turn of handwheel	2mm
Micrometric feed by small handle	0,01mm
Size of cup wheel	200 x 80 x 78mm Ø
Size of abrasive segments	50 x 20 x 90mm
Motor power of the wheel	(4 HP)-3 kW
RPM of the wheel (50 Hz)	2840rpm/min
Electropump motor power	(0,08 HP)-0,06 kW
Mass of the machine	680kg

Rotary table surface grinder

Standard Equipment

Low tension electric system (24V).
Cooling system with electropump
Wheel-holder flange and grinding wheel.
Grinding wheel guard
Table guard.- Stakes key
Instruction book/testing certificate
Two color painting RAL 5018-7032, bicomponent multicoat of paint
CE conformity certificate in respect to the Units
Directive CEE 89/392 and subsequent modifications
