

FMB Hercules Bandsaw

Millimetric reference length stop measuring system, cutting length 0÷600mm. Heavy duty machine base, sheet metal construction, raised sides for chips & coolant containment.

Base unit door with key locking, housing the coolant pump & tank, plus the hydraulic pump unit for bow cylinder movement, vice cylinder. Electrical cabinet with 24VAC, lockable main switch and electric drives. Total protection against highest voltage and short circuit current. Protection level IP 55. Electronic control panel: blade speed selection, piece counter, coolant selection, angle display (Code: VAT Optional) and cutting height memorizing. Alarm messages display and auto checking at start up.

Blade Dimensions	4120 x 34 x 1.1mm
Blade Speeds (variable)	16 - 120 m/min
Main motor (415v/3ph/50Hz)	3 Kw
Coolant Pump Motor	0.08 Kw
Hydraulic Pump Motor	0.36 Kw
Working height	950 mm
Weight	850 Kg
Dimensions	1000 x 2400 x 1600mm(h)
