

Specification

RPM	2800
Voltage	3 x 400V-50 Hz
Motor	1,1kW
Motor	1,5HP
Wheel size, Grinding wheel diameter	200mm x 38mm x 20mm
Grit, Grinding wheel	30/60
On pedestal with table and water cup	1
With exhaust	1
EX - 16	1
Length	570mm
Width	670mm
Height	1220mm
Weight	64

Machine Features

An efficient and powerful 3,0 HP motor that does not need downtime for cooling.

A low-noise and powerful grinding machine without vibrations.

Quality balanced grinding wheels in closed guards with adjustable spark arrestors and eye shields along with heavy cast iron tool rests.

Excellent safety with a separate emergency stop in accordance with the CE marking requirements.
