

## Macc NEW 300E Circular Saw

The Macc Saw range has been very popular in the UK market for over 30 years. This Macc New 300E Circular Saw is widely used in place of Brown 300 machines. Slower speed range for lots of Stainless Steel cutting, otherwise the 40/80 rpm model is the better option.

Macc New 300E is the perfect industrial chop saw for steel and stainless steels.
