

**Technical Specification****Macc 650DI Band saws - Double Mitre**

Cutting thickness	1,5mm
Cutting range	60°left 60°right
Blade cleaning device with brush	
Motor hydraulic	0,37 kW
Electro pump for band cooling	0,09 kW
Vice Jaw height	250mm
Vice Jaw length	200mm
Bed height	760mm
Machine weight	1250kg

Macc 650DI Band saws uk- Double Mitre

**Features**

- Highly efficient semi-automatic band saw machine with excellent cutting accuracy, used to cut larger sections and full bars. The machine's sturdy structure provides the machine with the required stiffness and cutting unit accuracy.
- High-capacity blade control by motor with inverter and special reducer with bronze gear and tempered worm screw
- Appropriately dimensioned flywheels.
- Strong blade guides with tight stress-raiser bearings and adjustable carbide tips
- Blade tensioning is obtained by electro-mechanical blade tensioner with micro switch for blade rotation shut off.
- Safety device on the flywheel casing and on the blade

Macc 650DI Bandsaw - uk. Structural steel band saw for heavy duty operations.
